01.Introduction

Introduction

MIT Academy of Engineering (MITAOE), Alandi, Pune, was established in 1999 under MAEER by the honorable Prof. Dr. Vishwanath D. Karad, Founder and Executive President of MIT Group. The institute offers seven UG programs (B.Tech) and three PG programs (M.Tech). The UGC honored the institute with 'Academic Autonomy' in 2016, considering the quality of pedagogical practices, research, faculty, and the state-of-the-art infrastructure that meets global standards.

The Savitribai Phule Pune University (SPPU) has honored the institute with the 'Best Engineering College (Professional Courses) award. The institute has made its mark by excelling in academics and research, and it continues to grow as a 'Centre of Excellence in engineering education and research. The NBA Accreditation to most branches, 'A' Grade by NAAC in 2014, and the 2(F) & 12(B) status from the UGC, are the testimony to our pursuit of excellence

VISION

To develop MITAOE into a new-age learning center with an excellent ambiance for academics and research conjugated with a vibrant environment for honing the extra and curricular skills of all its stakeholders, to enable them to solve real-world problems and bring a positive change in the society.

MISSION

To leave no stone unturned in our endeavor to ensure that every alumnus looks back at us and says MITAOE has not merely taught me, it has educated me.

City-based duo wins award for skills in mobile robotics

The team competed against Singapore, Germany and Brazil

Making the country proud, city-based students Samarth Goudar (22) and Vibhor Meshram (19) have won the title Medallion of Excellence at the 44th edition of the WorldSkills Abu Dhabi 2017. The duo from the MIT Academy of Engineering, Pune was selected in June to represent the country under the skill of mobile robotics.

Even though their selection was confirmed in June by the National Skill Development Corporation (NSDC) under the Ministry of Skill Development and Entrepreneurship (MSDE), the duo had started preparing for the theme of Playground Monitoring Robot in January. While Vibhor, who hails from Wardha, is still in college in his final year of electronics, Samarth on the other hand had graduated two years back and would come to the academy after office hours for almost 10 months to work on the project.

At the competition, the robot that the youngsters made had to get children (billiard balls) back to parents (specific place allocated in the arena). They used myRIO for controlling the robots, where they would feed the programming and used DC motors and grippers as well. The students also used the studica kit in their robot and the rest of the parts were built and fabricated by them at the college.

Talking about his experience in Abu Dhabi, Samarth said, "As I interacted with the students from Russia and Korea, I realised that they are studying robotics from a young age, and even if they were 18, this was in their curriculum. They used very advanced technologies. For instance, they had used laser cutting machines which made their robot more and precise for the mechanical structure. Also, they use the Laboratory Virtual Instrument Engineering Workbench (LabVIEW), a programming language that is yet to be added in the Indian curriculum."

The team would set daily targets and every day would stay up till 3-4 am. "I would start

Samarth Goudar (22) and Vibhor Meshram (19)

working in the morning itself and was on it from the last nine months. When we were given the theme, it was mentioned that it can be changed by 30-100 per cent and we had to prepare accordingly," shared Vibhor.

In mobile robotics, the Indian team scored higher than Singapore, Germany and Brazil competitors.

A total of 11 members representing India won prizes at the WorldSkills that concluded on October 18. These prizes were won in categories like patisserie and confectionery, prototype modelling, mechatronics, brick-laying, restaurant service, automobile technology, jewellery, graphic design technology, beauty therapy and car painting. Over 1,300 candidates participated from 59 countries.

Report of Central Library

The library is the “soul of Education” and a “Temple of knowledge.” A library plays a vital role in acquiring, organizing, and disseminating knowledge and information. MIT AOE Central library supports the teaching-learning program of the institute. The MITAOE Central Library serves as a knowledge resource center and maintains & updates various print and online resources. Central Library has multiple engineering, engineering sciences, humanities, and competitive and general reading resources. The library provides a user-friendly, friendly environment for students, faculty, and staff to pursue their academic and research endeavors.

The central library has the adequate and suitable infrastructure to meet students’ requirements; it has a centralized reading hall with 250 students. The total area of the library is 795 Sq. M.

Central Library follows open access system that allows users direct access to the library collection.

Central library is open on all the days of the week throughout the year except for 3 National, Diwali & Holi holidays. On Monday to Friday opening timing are 08.30 am to 10.00 pm & on Saturdays, Sundays and other holidays, 09.00 am to 05.00 pm. Classrooms remain open at night during examination time.

Central Library issued 05 books from FY to TY; however, 07 books to BE students for 15 days. We provide free book bank books to SC category students from FY to BE for one semester.

The central library has an extensive collection of printed books/e-books, reference books, datasheets, encyclopedias, book bank books, bound volumes, print / online resources, databases, CD-ROMs, and Video lectures to meet the academic, research, and information needs of the users. Central Library has also developed a Digital Library for its user; through the digital library, readers can access the syllabus, Old question bank, BE project report, and CD ROMs. Moreover, users can access a list of reading hall copies, including one copy of the university syllabus, Reference books, general books, bound volumes, project report & CD ROMs. All these resources can be accessed through the intranet.

Central Library uses SLIM21, an integrated multi-user, multi-tasking library management software that supports all in-house operations. Besides that, we have barcode software also for generating barcodes.

Central Library added the following resources and services:

18. Annual report for e-governance

ANNUAL E-GOVERNANCE REPORT

MIT Academy of Engineering Alandi Pune is trying its best to keep pace with the recent applications of e-governance in terms of various functions being performed digitally through the internet. The necessary infrastructure is adequate as per the need for ICT. A healthy-equipped internet center has been established in the College to monitor and regulate computer systems' smooth functioning and address all IT-related issues so that maximum benefits can be ensured. Students and staff members are aided and supported through an internet center in case of software and portal-related online problems. A separate team headed by the Chief Technology Officer is appointed to help with IT and digital infrastructure-related issues. The overwhelming response of human resources to digital technology has strengthened the prospects of e-governance in different areas of operation

01.Introduction

Introduction

MIT Academy of Engineering (MITAOE), Alandi, Pune, was established in 1999 under MAEER by the honorable Prof. Dr. Vishwanath D. Karad, Founder and Executive President of MIT Group. The institute offers seven UG programs (B.Tech) and three PG programs (M.Tech). The UGC honored the institute with ‘Academic Autonomy’ in 2016, considering the quality of pedagogical practices, research, faculty, and the state-of-the-art infrastructure that meets global standards.

The Savitribai Phule Pune University (SPPU) has honored the institute with the ‘Best Engineering College (Professional Courses) award. The institute has made its mark by excelling in academics and research, and it continues to grow as a ‘Centre of Excellence in engineering education and research. The NBA Accreditation to most branches, ‘A’ Grade by NAAC in 2014, and the 2(F) & 12(B) status from the UGC, are the testimony to our pursuit of excellence

VISION

To develop MITAOE into a new-age learning center with an excellent ambiance for academics and research conjugated with a vibrant environment for honing the extra and curricular skills of all its stakeholders, to enable them to solve real-world problems and bring a positive change in the society.

MISSION

To leave no stone unturned in our endeavor to ensure that every alumnus looks back at us and says MITAOE has not merely taught me, it has educated me.

01.Introduction

Introduction

MIT Academy of Engineering (MITAOE), Alandi, Pune, was established in 1999 under MAEER by the honorable Prof. Dr. Vishwanath D. Karad, Founder and Executive President of MIT Group. The institute offers seven UG programs (B.Tech) and three PG programs (M.Tech). The UGC honored the institute with 'Academic Autonomy' in 2016, considering the quality of pedagogical practices, research, faculty, and the state-of-the-art infrastructure that meets global standards.

The Savitribai Phule Pune University (SPPU) has honored the institute with the 'Best Engineering College (Professional Courses) award. The institute has made its mark by excelling in academics and research, and it continues to grow as a 'Centre of Excellence in engineering education and research. The NBA Accreditation to most branches, 'A' Grade by NAAC in 2014, and the 2(F) & 12(B) status from the UGC, are the testimony to our pursuit of excellence

VISION

To develop MITAOE into a new-age learning center with an excellent ambiance for academics and research conjugated with a vibrant environment for honing the extra and curricular skills of all its stakeholders, to enable them to solve real-world problems and bring a positive change in the society.

MISSION

To leave no stone unturned in our endeavor to ensure that every alumnus looks back at us and says MITAOE has not merely taught me, it has educated me.

1. Introduction

Introduction

MIT Academy of Engineering (MITAOE), Alandi, Pune, was established in 1999 under MAEER by the honorable Prof. Dr. Vishwanath D. Karad, Founder and Executive President of MIT Group. The institute offers seven UG programs (B.Tech) and three PG programs (M.Tech). The UGC honored the institute with 'Academic Autonomy' in 2016, considering the quality of pedagogical practices, research, faculty, and the state-of-the-art infrastructure that meets global standards.

The Savitribai Phule Pune University (SPPU) has honored the institute with the 'Best Engineering College (Professional Courses) award. The institute has made its mark by excelling in academics and research, and it continues to grow as a 'Centre of Excellence in engineering education and research. The NBA Accreditation to most branches, 'A' Grade by NAAC in 2014, and the 2(F) & 12(B) status from the UGC, are the testimony to our pursuit of excellence.

VISION

To develop MITAOE into a new-age learning center with an excellent ambiance for academics and research conjugated with a vibrant environment for honing the extra and curricular skills of all its stakeholders, to enable them to solve real-world problems and bring a positive change in the society.

MISSION

To leave no stone unturned in our endeavor to ensure that every alumnus looks back at us and says MITAOE has not merely taught me, it has educated me.

15.Celebration

Nakshatra- Annual Social Gathering

Nakshatra is the annual Socio-Cultural gathering of the MIT Academy of Engineering. It provides the platform where one can unleash his talent and ignite the stage with marvelous performances—this event is conducted for an entire week. Every day of the week is celebrated with a different theme consisting of fun games and activities. The themes are traditional days, alike group day, saree day, and many more, which keep changing with each Nakshatra. Then comes the most awaited last two days of Nakshatra! These are filled with enthusiastic performances, alluring notes, dramatic plays, zestful moves, and much more. Also, here every department has its eyes on the sports shield. This was the most breathtaking moment as every department had rigorously competed in the annual sports meet to reach the pinnacle.

But now, due to this Global pandemic, everything is shifted to virtual mode. MIT AOE has been the first college in Pune to conduct the gathering in virtual mode. The cultural gathering, NAKSHATRA 2021, was on virtual platforms on the 14th and 17th of March. This two-day event comprised of a Prize Distribution Ceremony on 14th March, which was conducted on the GoTo Webinar platform to honor those who have excelled in academics, extracurricular activities, or anything else; we are here to celebrate their achievements, followed by a cultural night on 17th March, which streamed live on YouTube where students of MITAOE showcased their talents through dance, singing and other performances.

NSS Report- Regular Activities

The volunteers of National Service Scheme, MIT Academy of Engineering Alandi, significantly and actively participated in the virtual campaign **हारीत वारी, Öवछ**

वारी, Öवछ 2020, organized by NSS SPPU Pune, taking all the necessary precautions.

Our volunteers planted more than 50 trees on 03/07/2021 at their places

They followed the instructions as asked to do the Geotagging, update the university's Facebook page, and link to the university website.

At the same time, for three months, in whatever way possible, as COVID warriors, volunteers have been creating awareness among the people regarding COVID. The same is updated in regular online meetings of NSS SPPU Pune. Attached here are some of the photos.

We have also organized a webinar on 18 October 2020 to create awareness about Organ Donation by ZTCC; 60 students participated in the webinar.

On 24 September 2020, We have celebrated NSS day virtually.

Considering the scenario of working from home, on 21 December 2020, we organized a 1-week office yoga session for the faculty and students.

1. Introduction

Introduction

MIT Academy of Engineering (MITAOE), Alandi, Pune, was established in 1999 under MAEER by the honorable Prof. Dr. Vishwanath D. Karad, Founder and Executive President of MIT Group. The institute offers seven UG programs (B.Tech) and three PG programs (M.Tech). The UGC honored the institute with 'Academic Autonomy' in 2016, considering the quality of pedagogical practices, research, faculty, and the state-of-the-art infrastructure that meets global standards.

The Savitribai Phule Pune University (SPPU) has honored the institute with the 'Best Engineering College (Professional Courses) award. The institute has made its mark by excelling in academics and research, and it continues to grow as a 'Centre of Excellence in engineering education and research. The NBA Accreditation to most branches, 'A' Grade by NAAC in 2014, and the 2(F) & 12(B) status from the UGC, are the testimony to our pursuit of excellence.

VISION

To develop MITAOE into a new-age learning center with an excellent ambiance for academics and research conjugated with a vibrant environment for honing the extra and curricular skills of all its stakeholders, to enable them to solve real-world problems and bring a positive change in the society.

MISSION

To leave no stone unturned in our endeavor to ensure that every alumnus looks back at us and says MITAOE has not merely taught me, it has educated me.

14.Celebration

Nakshatra- Annual Social Gathering

Nakshatra is the annual Socio-Cultural gathering of the MIT Academy of Engineering. It provides the platform where one can unleash his talent and ignite the stage with marvelous performances—this event is conducted for an entire week. Every day of the week is celebrated with a different theme consisting of fun games and activities. The themes are traditional days, alike group day, saree day, and many more, which keep changing with each Nakshatra. Then comes the most awaited last two days of Nakshatra! These are filled with enthusiastic performances, alluring notes, dramatic plays, zestful moves, and much more. Also, here every department has its eyes on the sports shield. This was the most breathtaking moment as every department had rigorously competed in the annual sports meet to reach the pinnacle.

But now, due to this Global pandemic, everything is shifted to virtual mode. MIT AOE has been the first college in Pune to conduct the gathering in virtual mode. The cultural gathering, NAKSHATRA 2021, was on virtual platforms on the 14th and 17th of March. This two-day event comprised of a Prize Distribution Ceremony on 14th March, which was conducted on the GoTo Webinar platform to honor those who have excelled in academics, extracurricular activities, or anything else; we are here to celebrate their achievements, followed by a cultural night on 17th March, which streamed live on YouTube where students of MITAOE showcased their talents through dance, singing and other performances.
