Your Institute MIT Academy of Engineering is now is now a part of the NDLI Club

Dear Vandana,

The request of MIT Academy of Engineering to set up NDLI Club at the institute has been approved. All interested students, faculty members and employees of MIT Academy of Engineering can now enroll themselves as members of MIT Academy of Engineering NDLI Club, using the passkey given below:

Passkey: — **2a99fb07-0aed-428c-8b75-a2cc49ba3c37**

Club Registration Number : **INMHNC5JLFNIAWV**

You are requested to share the Passkey with all your students, faculty members and employees via e-mail and advise them to visit https://club.ndli.iitkgp.ac.in/sign-up to enroll themselves as member of the NDLI Club using their e-mail id and the Passkey. You may also take a printout of the enclosed document and paste it on the notice boards of MIT Academy of Engineering so that the students, faculty members and employees can view the details about the NDLI Club and enroll themselves as members of the Club by scanning the QR Code indicated in the page.

You will be able to download a Certificate of Registration for NDLI Club of MIT Academy of Engineering from the NDLI Club portal club url once you conduct 1st event of your NDLI Club (which may be NDLI User Awareness Session) within the next 30 days and that is attended by at least 100 members of the NDLI Club of MIT Academy of Engineering.

This NDLI Club Certificate of Registration is valid for 12 Month and will be renewed every 12 Month, subject to the NDLI Club of MIT Academy of Engineering conducting at least 6 reading/knowledge related Events and 4 Global Events conducted by others online within the next 12 months and at least 100 members of your Club attending .

The best performing NDLI Clubs at District/ State/ National level will be recognized appropriately.

We look forward to your continued support.

coursera for Campus

Hi Vandana Khandelwal,

Thank you again for expressing interest in Coursera!

Our mission is to transform lives through learning, and we want to help your
students by offering courses online to minimize the impact of the coronavirus on
their education.

We are glad to be able to support your community with this response initiative.
We're excited to let you know that your Coursera for Campus program for 2000
learners is ready and is officially launching today 03/25/2020. You can access your
new program(s) here.

The following individual has been provided organization administrator access. They
can add additional administrators on your Coursera portal.

Respected and dear all

Greetings for the day

I am happy to share that Coursera has set up a free online education program for MITOAE learners called "Coursera for Campus". The mission of Coursera is to transform lives through learning. To help minimize the impact of the coronavirus outbreak on students learning, the Coursera community is launching a global effort to assist universities and colleges to deliver courseware online.

The aim of the Coursera is to provide free online education to the university/college learners impacted by COVID-19.

As its Administrator (SPOC), I must upload the full names and email IDs of all faculty members and students to the Coursera website in CSV format. The Coursera will send emails to individual faculty members and students to join the courses.

I, therefore, request all school deans to share the full names and email IDs of faculty members and students on or before 28 March 2020 at 12 noon in CSV format. The sooner we give details; the sooner learners will start learning.

The quick response will be highly appreciated.

Secondly, all school deans are requested to encourage their faculty members and students to enroll in at least one course to take advantage of this opportunity.

Thanks & regards

IEEE now offers access to eLearning courses to customers in need of distance learning resources

M

Mohit Bhathija <v-mbhathija@ebsco.com> Apr 3, 2020, 4:18 PM

Dear Sir/Madam,

Greetings from EBSCO-IEEE !

Hope my mail finds you well !

At IEEE, we know that many of our customers are facing sudden change. Faculty are being asked to offer courses, originally planned for in-person learning, in a distance learning format. Employees are being asked to work from home, often with young children at home, as well. In this challenging time, we wanted to provide our customers with resources that may be helpful to you.

Starting today, IEEE is offering free access to a special selection of more than **60 IEEE eLearning courses** (refer attached eLearning title list) to help students, engineers, and other learners in India, Bangladesh, and Sri Lanka to continue learning even if they are unable to attend school or work in person. It is part of the IEEE mission to provide resources to support lifelong learning and continued professional development and we hope your organization will find these courses helpful during this difficult time.

These specially selected courses cover a wide range of important, cutting-edge topics such as **artificial intelligence, autonomous vehicles, edge computing, blockchain, IoT, cybersecurity,** and **professional development** and will be available until at least 30th April 2020.

To access this content, please visit ieeexplore.ieee.org. You can use the same temporary credentials provided to access your IEEE *Xplore* digital library subscription. If your institution has enabled remote access, kindly use the same authentication method for access to the eLearning content, as well.

We encourage you to share this information with your students, faculty, and colleagues that are authorized to access your organization and hope you will find these courses helpful !

Online training for institution is also available during COVID-19 outbreak; you can request one by filling up an online form. https://tinyurl.com/ieeecovid19

We are prepared to support you through this challenging time. If you have any questions about your access to IEEE Xplore or require any other assistance, please feel free to contact us at any time.

Thanks & Regards,

to me

Dear Nita Brahmbhatt,

The welfare of you, your colleagues and students remain paramount to Elsevier during COVID-19. We're committed to supporting institutions that have researchers and information professionals working remotely during location closures or social distancing.

We have made all textbooks freely accessible to ScienceDirect customers to support students and lecturers whose classes have moved from campus to online.

Visit the **list of titles**, now available with free access on ScienceDirect until 15th June 2020.

You can count on Elsevier's support during this exceptional situation. We're here to help researchers, faculties and students with access to high-quality information regardless of where they're working.

Note that we have also **prepared an information center** with expert, curated, free-to-access information on COVID-19 for the research and healthcare communities. Elsevier's Novel Coronavirus Information Center now has almost 20,000 relevant articles, also freely available on ScienceDirect.

We hope you, your colleagues and your families stay safe during this challenging time.

Best regards,

Shweta Sethi
