# **PREAMBLE**

The strategy document of MIT Academy of Engineering, lays the path for our progress over next three years. The document has been prepared keeping in mind the SWOC analysis.

With the release of National Education Policy (NEP) 2020, the higher education environment will continue to see a paradigm shift, including greater student aspirations, increased competition, shift in society and industry expectations, changing social dynamics, and a major transition in the role of faculty.

We want to ensure that MIT Academy of Engineering shall remain relevant, creative and inventive to solve real world problems and bring a positive change in the society through academic and research excellence.

After extensive deliberations with stake holders, five core key areas viz., Teaching Learning Process, Research and Consultancy, Student Support and Success, Enhanced Students Experience, Enhanced Alumni Engagement and five support key areas viz., People and Welfare, Social Media Connect, Entrepreneurial and Innovation Ecosystem, Campus and Service and Sustainability for improvement have been identified.

To achieve the goals in the context of a dynamic environment, it is important that we have well defined objectives, meeting the new-age education scenario mapped to the measurable outcomes, set of strategies and controlled processes to achieve them.

This document lays the foundation and sets a path for us to move from the plan to a realizable better future.

**Director**  
MITAOE

## **VISION**

To develop MITAOE into a new-age learning center with an excellent ambiance for academics and research conjugated with a vibrant environment for honing the extra and curricular skills of all its stakeholders, to enable them to solve real-world problems and bring a positive change in the society.

## **MISSION**

To leave no stone unturned in our endeavor to ensure that every alumnus looks back at us and says MITAOE has not merely taught me, it has educated me.

## **CORE VALUES**

### **Knowledge**

We believe that knowledge is a premise of progress and we continuously strive for new ideas, discovery and creativity.

### **Excellence**

It is the gradual result of our continuous effort to do better by skillful planning, execution and review.

### **Integrity**

We believe in highest standards of ethics, wisdom and honesty in all academic and research activities.

### **Transparency**

The institute works as per the defined policies and rules.

### **Empathy**

The integral part of our education is being aware of and being sensitive to conditions of weaker sections of society and contribute towards their welfare.

“

TO BE A LEADING  
EDUCATIONAL  
INSTITUTE TO  
CREATE LEADERS,  
AND INNOVATORS  
FOR CONTRIBUTING  
TOWARDS THE  
INDUSTRIAL,  
ECONOMIC, AND  
SOCIAL GROWTH OF  
THE SOCIETY.

”

# OVERVIEW

MITAOE strategic plan is built upon five core values **Knowledge, Excellence, Integrity, Transparency and Empathy**. All activities at MITAOE are having people at its heart and for imparting essential skills of 21st Century, i.e. Critical Thinking, Creativity, Collaboration, Communication, Career and Life Skills.

The MITAOE strategic plan has been created through a detailed discussion process with all stakeholders. Institute core committee was formed to prepare a draft of the strategic plan based on inputs taken from internal and external stakeholders.

This plan was discussed in various stakeholder meetings followed by feedback on major focus areas. This plan sets the strategy and targets for all functions and units of the institute for the next three years. The implementation strategy and progress will be reviewed quarterly to assure progressive performance.

# CORE FOCUS AREAS

1.

## Teaching Learning Process

We believe effective learning requires a comprehensive approach that involves appropriate curriculum, engaging pedagogy, continuous assessment, and adequate student support. At MITAOE, we offer flexible but rigorous academic program and opportunities for participating in a wide range of professional and extracurricular activities. The curriculum is designed to empower our students with four important and necessary skills of the 21st century, Critical thinking, Creativity, Collaboration and Communication.

2.

## Research & Consultancy

MITAOE endeavors in creating learning environment conjugated with research, which helps students in understanding methods of knowledge creation and its impact in social and economical contexts. The curriculum is largely designed on inquiry based activities. Experiences of faculties working in research forefront areas are further integrated into students learning activities. Key skills of critical analysis, respect for evidence and informed decision-making are stimulated through Project based learning & Minor/Mini/Major projects.

3.

## Students Support & Success

MITAOE aims at providing its students a comprehensive platform for different curricular and co-curricular activities to achieve the graduate outcomes in the form of industrial placement, higher studies and entrepreneurship. The corporate relations office is a unique entity in the campus which offers counseling and provides assistance to the students to encourage them for skill-based training, various internship programs, recruitment in the industries of repute, and higher education in renowned universities across the world

4.

## Enhanced Student Experience

Nurturing a responsible, empathetic, creative and civilized citizen is the real need of the hour. Providing conducive environment for development of such citizens is our main intention. Student development activities at MITAOE tries to provide all possible facilities and infrastructure to turn an engineer into an ideal citizen.

5.

## Enhanced Alumni Engagement

Alumni are a powerful resource for the institutes and its students, both today and in the future. The alumni association has been envisioned to build a strong network between the present budding MITAOEians and its distinguished alumni. Alumni are the brand ambassadors of MITAOE, providing their services to the society.

# SUPPORTING FOCUS AREAS

6.

## People & Welfare

An institute would be known by its contribution to the society in terms of its exemplary work dedicated to the upliftment of society and its outstanding alumnus who would showcase the Institute's mettle around the globe. This is possible only by a blend of passionate, competent academicians and enthusiastic students with an innovative mindset.

7.

## Social Media Connect

To build the brand image of MIT Academy of Engineering to attract the best of the talent by creating dynamic engaging content on the website, social media, print media platforms and exhibitions to improve communication with all the stake holders.

8.

## Entrepreneurial and Innovation Ecosystem

We provide mentoring, Networking & handholding support to students/ alumni/ others for real venture/startups in sector agnostic industries. Till date entrepreneurship education was provided for 1500+ students & 7 faculty were trained as entrepreneurship educators. The EDF also plans to offer a minor specialization for UG students in Innovation, Entrepreneurship & Startups.

9.

## Campus & Services

Digital infrastructure is an important part of today's academic system. It provides seamless access to the academic resources allowing students to collaborate and enable the productive environment for administration.

10.

## Sustainability

It is imperative that the institution has the infrastructure in place to help the students to learn, research and innovate, in their quest for knowledge viz., ambience, updated library, research labs and computer labs to meet the dynamic requirements of the curriculum in a very sustainable way without causing a negative impact on the environment.

# Objectives

- To provide a professional and liberal education to students with guiding principle of a broad and strong foundation, a skillful training and a practical orientation towards solving real-world problems.
- To inculcate value added education for the highest professional competence and character to constructively deal with challenges and opportunities of 21st century.
- To educate the next generation of engineers as integrated expertise across many technical disciplines by enhancing academic flexibility.
- To achieve academic excellence in curriculum design, content delivery, pedagogy, and assessment.
- To provide a robust learning environment and academic infrastructure for a better student experience.
- To nurture industry collaboration and engagement to build student competencies, enhance innovation and solve critical problems.
- To initiate professional certificate courses for an in-demand career opportunities.

# Actions

- Improve faculty competencies by supporting professional training programs.
- An effective blending of face-to-face and online pedagogical practices for the enriched learning experience.
- Design a curriculum framework for providing academic flexibility in the selection of specialization courses.
- Embracing the curriculum with technological competencies and skills required in the upcoming era of industry 4.0.
- Integration of design, technology and business thinking in the curriculum for creative and user-focused innovative solutions to the problem.
- Value-based education incorporating universal life skills, professional skills and sustainability.
- Enhance academic, laboratory and library infrastructure for new courses and specialization tracks.
- Formulate assessment and evaluation techniques for effectively measuring learning outcomes of the new skill-sets of 21st century.
- Devise policy for academic credit-earning through experiential learning in real-world context and relevant achievement.
- Strengthen industry collaboration in academic activities such as expert talks, workshops, collaborated skill laboratories and courses.

# 1. Teaching Learning Process

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
<b>Academic Framework</b>			
Curriculum Flexibility (% of Credits)	18	22	25
Curriculum Revision (% of Contents)	20	25	30
<b>Industry Engagement</b>			
Expert Talk	100	100	100
Skill Courses	15	25	30
Laboratory Collaboration	3	3	4
<b>Teaching Learning Centre</b>			
Faculty Development Programs	7	7	7
Professional Courses (per faculty)	2	2	2
Assessment Reform (% of Credits)	10	10	10
Digital Content Creation (No. of Courses)	10	10	10
Professional Certificate Courses	3	3	3

# Goal

*To meet the diverse future needs of society through flexible and interdisciplinary academic experience, innovative teaching-learning pedagogy, effective assessment and transformative student experience to promote lifelong learning.*

# Objectives

- To improve research publications and its impact
- To submit quality proposals to different funding agencies.
- To accelerate collaborative and interdisciplinary research.
- To enhance the Consultancy work
- To improve IPR related activities

# Actions

- To organize various Workshops/Seminars/ Trainings related to different Research forefront areas and research methods.
- Create ecosystem for multi-disciplinary research groups in high potential research areas.
- Transform research environment to meet the highest standards of research conduct, integrity, sustainability and social impact.
- Encourage and support Research Conferences and Project Expos at MITAOE.
- Support seed amount for faculty/student's research projects and Conferences
- Establish Ph.D research centre in Mechanical & Computer Engineering.
- Encourage Faculty Industry Internship and Collaboration.
- Encourage Consultancy through Alumni Entrepreneurs and Industrial Sponsored Projects.
- Collaboration with Research Laboratories (NCL, IISER, DRDO etc ) and Industries.
- Encourage Extension activities through Research Clusters.
- Establish mechanism to support research activities in forefront areas and identification of thrust areas through a biannual call for proposals.
- Substantial investment in the Research environment, Training, Digital resources and infrastructure.
- Articulate comprehensive Research/ Consultancy/IPR policy to foster culture of Research and Innovation.

# 2. Research & Consultancy

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
<b>Research Funding and Grants</b>			
Seed Money (No. of projects/program)	2	2	2
External Funding (Per program)	2	2	2
<b>Total per program</b>	<b>4</b>	<b>4</b>	<b>4</b>
<b>Research Publications scopus / SCI indexed (Nos.)</b>			
International Journals (Nos.)	20	25	30
National Journals (Nos.)	5	5	5
International / National Conferences - (Nos.)	60	70	80
Book Chapters (Nos.)	5	10	10
<b>Total (Nos.)</b>	<b>90</b>	<b>110</b>	<b>125</b>
IPR (No. of Patents)	10	15	20
<b>Consultancy</b>			
Engineering Consultancy	4	8	8
Design Consultancy	2	4	6
<b>Total</b>	<b>6</b>	<b>12</b>	<b>14</b>

**Goal** To provide conducive research ecosystem for faculties and students to solve techno societal problems, knowledge generation and broadening funding base.

# Objectives

- Develop and offer skill-based programs to cater student's requirements from career point of view
- Organize goal setting sessions from career, entrepreneurship, and higher studies perspectives
- Provide platforms for consultancy work, internship, collaborative projects, and placement
- Improve employability quotient of students
- Develop strong industry institute interaction
- Enhance placement - qualitative and quantitative
- Build relations with Natinal / International universities, research organizations, and industries of repute
- Enhance ecosystem for students aspiring higher education

# Actions

- Provide skilled based training and assessment platforms required for employability
- Organise training programs to enhance the technical competencies of the students
- Encourage students for Summer Internship Program (SIP) to enhance their life, social and technical skills
- Maximise the industrial internships opportunities to provide real time industry exposure
- Motivate students for Semester Long internship Program (SLIP) to apply their knowledge and skills for solving the real time industry problems.
- Encourage students to participate in technical competitions like Hackathon, Baja SAE, programming contest
- Build strong network with industries to organize curricular and co-curricular activities, develop collaborative laboratory and arrange certification programs.
- Fetch maximum industry collaborative projects to strengthen the project-based learning experience.
- Motivate faculties for faculty internship and consultancy programs
- Organise seminar, webinar, expert talk to discuss current technical trends
- Counsel the students to improve their career exposure across the globe
- Conduct 'graduate outcome audit' to evaluate student's professional index
- Arrange workshop on leadership, time / stress management, creativity, and innovations
- Organize training sessions to develop soft skills, digital skills, aptitude, logical, analytical, and reasoning skills of students

# 3. Students Support & Success

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
Employability- Training programs	8	10	12
SIP (Industry) - No. of students	400	450	500
SIP - No. of industry offers	350	400	450
SLIP - No. of students	150	200	250
SLIP - No. of industry offers	60	80	100
Placement - No. of students	440	480	500
Placement - No. industry offers	300	330	360
Placement - Average Salary	5.0 L	5.4 L	5.8 L
<b>Higher Studies - No. of students</b>			
International	10	20	30
National	20	25	30
<b>Total</b>	<b>30</b>	<b>45</b>	<b>60</b>

# Goal

*To impart the necessary knowledge and skills, for enhancing the student's employability quotient, higher education aspirants and passionate entrepreneurs at MITAOE, by improving industry connects, international relations, entrepreneurial ecosystem.*

# Objectives

- Accomplish holistic development of students by providing essential ecosystem.
- Enrich joy of learning among students.
- Provide exposure to the students in technical, cultural, recreational and sports domain.
- Inculcate empathy and universal human values in students & Support students for their emotional and psychological well-being.
- Develop research aspiration in students through club activities.
- Define student welfare and scholarship policy.
- Improve Student Satisfaction Index.

# Actions

- Promote all-round development of students through various club activities.
- Build a strong foundation for Liberal Learning courses by including it in curriculum structure to induce emotional, ethical, creative and intellectual competencies in the students in line with Modern Era requirements.
- Develop MITAOE clubs as skill centres by providing essential training through expert talks, workshops and internships.
- Explore various events and competitions for all clubs to encourage participation & Extend necessary support to the students for participation in technical, cultural, recreational and sports events
- Encourage club activities by providing best club of the year, outstanding club member and best club coordinator award.
- Recognize contribution and efforts of the students for extra and co-curricular activities by linking it to assessment.
- Ensure publications, or product development or patents as outcomes of technical clubs by guiding them on it.
- Inculcate empathy and universal human values in students by providing opportunity for Social internship and activities.
- Arrange 24\*7 psychological and emotional wellbeing support for students through professional online platform.
- Conduct periodic reviews for monitoring the progress of all major events and competitions to ensure quality work and competencies.
- Create various scholarships, welfare schemes for needy and meritorious students. Establish a strong bond with alumni through club activities by alumni mentorship.
- Conduct periodic survey of student satisfaction for continual improvement.

# 4. Enhanced Student Experience

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
<b>Competitions and Events Participation</b>			
Technical- Participation (Nos.)	300	350	400
Number of Technical competitions	30	35	40
Number of Technical achievements	40	45	50
Total number of students participation in various student events	35 %	60 %	75 %
Total number of students Achievements	75	80	100
Number of events / competitions to be participated	90	100	120
<b>MITAOE Club Events- Organization</b>			
MITAOE Clubs ( Cumulative Nos.)	25	28	30
Club events( Cumulative Nos.)	125	150	180
National level technical event (Nos.)	2	2	2
Sports events (Nos. )	3	3	3
Youth events	TEDx, Under25	TEDx, Under25	TEDx, Under25
<b>Social Internship</b>			
Number of Social internships	2	3	4
Number of students	40	60	100

## Goal

*To create and maintain a safe, healthy, and conducive environment and culture that synthesizes the intellectual, technical, physical, social, emotional, and ethical development of students in a holistic way.*

# Objectives

- Enhance alumni involvement in curricular and co-curricular activities
- Engage alumni as an advisor to mentor the budding Engineers
- Increase awareness and career support through alumni for the ongoing students
- Arrange experience sharing sessions to strengthen educational and social activities
- Encourage alumni to sponsor the development activities
- Build strong alumni connect in and out of India
- Recognize the alumni achievements

# Actions

- Involve alumni in curriculum design and delivery
- Engage alumni in project reviews and in other evaluation process
- Arrange expert talks, seminars, webinars, or guest lectures by inviting alumni
- Encourage alumni to extend their support in student placement and internship
- Involve alumni as a mentor in co-curricular and extra-curricular activities.
- Engage alumni in various awareness session to enhance the graduate outcomes
- Organize alumni-meet city wise and abroad

# 5. Enhanced Alumni Engagement

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
Alumni Activities	60	80	100
Alumni meet (school/institute level)	6	8	10
Alumni meet - Student involvement	600	800	1000
Alumni - Sponsorship (Nos.)	5	7	9
Alumni - Internship / placement offers	40	80	120
Distinguished Alumni - Recognition Appreciation	5 30	7 40	10 50

# Goal

*To build the strong rapport and networking among faculties, recent students & alumni.*

# Objectives

- To maintain Faculty to Student ratio for Engineering and Design as per AICTE norms.
- To encourage faculty for lifelong learning.
- To enhance the cadre ratio.

# Actions

- To enhance the competencies of faculties and staff:
  - Establishment of Faculty and Staff learning centre for continual skill updation.
  - Design a comprehensive competency matrix to address various skills in a measurable way.
  - Organizing institutional level FDP and SDP programs.
  - Monitoring the Effectiveness of Training.
  - Categorization of faculties as Academic / Research / Development / Administration based on their skills
- To enhance the competencies of Industry-ready faculties and staff:
  - To promote faculty internship in industry, Industry project, consultancy work.
  - Encouraging Schools to take up professional/industry projects
- To enhance FSR and Cadre ratio
  - Recruitment of faculties at the various positions for Engineering, Design, Behavioral sciences and niche technological skills.
- To enhance the process for accountability and ownership to make it more transparent and performance based.
  - Modify Faculty / Staff API scheme with specific and measurable parameters.
  - Enhance KRAs based review.
  - Quarterly review of performance.
  - Appointing senior faculty to mentor Junior faculty.
- To use HRMS process and services through ICT based technology.
- To follow the best practices of HR for motivation and welfare of employees:
  - Welfare scheme to provide support for Conferences, workshops, trainings and provision of Lien leave/ sabbatical leave / Study Leave.
  - Support for Health policy premium
  - Awards and recognition for outstanding performances.

# 6. People & Welfare

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
<b>Faculty Strength (no.)</b>			
Engineering (Faculty : Student ratio)	1:18	1: 15	1:15
Design	1:20	1:10	1:10
<b>Tech Integration (%)</b>			
HRMS (Automation of HR processes) Central Repository	70	100	100
Employee Satisfaction (%)	70	75	80

# Goal

To identify, develop, update and maintain competencies of faculties and staff for teaching pedagogy, assessment and evaluation, Research and Development, real time problem solving, interaction with outside world, consultancy and ICT tools.

# Objectives

- To enhance the traffic on website (sessions or unique users / day)
- To increase lead generation
- To reduce overall cost per lead (CPL)
- Improve the number of admissions.
- Improve the ratio of registered to admitted students
- Improve the quality of students intake.

# Actions

- Use rich keyword-oriented Blogs/ Article/ Publications in all forms of Content.
- Organic ranking of top keywords using local SEO. Increase submission of images /infographics and videos
- Increase domain credibility
- Create a standard event calendar for every quarter for content development
- Increasing followers and engagement on various platforms – Facebook, Instagram, LinkedIn, twitter etc
- Build audiences organically to help in lead generation during admissions.
- Long term marketing – Boosting content online periodically
- Reduce paid advertising spend on Social Media gradually
- Increase quality leads through LMS
- Focus on Content Creation and Optimization – In house – 80% and 20% from external sources – Alumni, Corporate nominees as guest writers

# 7. Social Media Connect

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
Website traffic projection (unique users per day)	1000	1200	1400
Admission			
Engineering (%)	85	90	95
Design (%)	85	95	100
Increase quality leads	8000	10000	11000
Sign up leads	1500	2000	2500

**Goal** To create an image of the institute using digital and other media so as to attract better quality students as well as recruiters and engage with all the stakeholders in a meaningful way

# Objectives

- To encourage and support students and youngsters to opt for entrepreneurship as a career opportunity
- To strengthen the students, alumni and local entrepreneurial ecosystem by providing the necessary information, knowledge, support, facilities and organise community-level programs and summit to develop the start-up culture
- To connect the start-up aspirants with the respective domain experts, entrepreneurship mentors, consultants and investors
- To work and network with various organizations in the field of entrepreneurial development

# Actions

- Organize the events, hackathons, ideathons, summits for strengthening network.
- Encourage interested students, faculty and staff members for Project to Product (P2P) Transformation Program (for Engineering and other disciplines) in collaboration with School of Design
- Contribute in long term institute branding activities
- Conduct upskilling and outreach programs
- Execute the capacity building program in Pune region
- Execute and evaluate the outcome of minor specialisations in innovation, entrepreneurship and startup/venture.
- Amendment of existing IPR and Innovation & Startup policy
- Constitute the alumni council for startup and innovation.
- Encourage to adopt and strengthen the NISP (National Innovation and Startup Policy for Students and Faculty) policy for all stakeholder of institute.

# 8. Entrepreneurial & Innovation Ecosystem

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
Innovation and Entrepreneurship Awareness and Promotional activities	10	12	12
Networking,	4	6	6
Upskilling and Outreach program	4	4	6
Alumni engagement activities	3	4	4
Project to Product (P2P) Transformation Program	4	6	8
Course offering in IEV (Innovation, Entrepreneurship and Venture)	Offering Minor course	Certification course in Innovation and E'ship	Continue the existing activities
No of student startup	20	25	30
Infrastructure and facilities - Incubatee Seating space	15	20	25
Patents at MITAOE EDF	4	6	8
Crazy quilt with mentor, investor and channel partners	20	30	40

**Goal** To be a leading contributor in the field of Incubation to cultivate, foster and stimulate the entrepreneurial aspirations and provide an ecosystem to create innovative, sustainable, profitable and job creating start-ups.

# Objectives

- Build an e-learning infrastructure for online & on campus courses.
- Enhance and improve the administrative services by technology intervention.
- Build a student information system for all the academic and placement related records.

# Actions

- Centralized Wi-Fi network to support mobility and connectivity to any device.
- Gigabit internet and intranet connectivity.
- LMS and ERP to support academic and administrative activities.
- Digital classrooms equipped with internet and smart learning infrastructure.
- Setup a recording studio and build a separate team for creating the digital content required for the online courses.

# 9. Campus & Services

## Outcomes

Key Performance Indicators	2021-22	22-23	23-24
Wi-Fi Infrastructure	40%	70 %	100 %
LMS Concurrent Users	1.5K	2 K	3 K+
Internet Bandwidth	500 Mbps	1 Gbps	2 Gbps
ERP/LMS	60%	80 %	100 %
MATLAB License Unlimited	Standard + 40 Add-On + 50 Tool Box	Standard + 50 Add-On + 60 Tool Box	Standard + 60 Add-On + 70 Tool Box
Turnitin Plagiarism	1000	1000	1000

**Goal** *To provide the technology enabled digital campus services blended with mobility, any device, e-content availability, and secure access to network.*

# Objectives

- To directly work with the society and community needs.
- To work with the industry on real world projects.
- To develop market driven and technology driven projects.
- To reduce waste generation
- To reduce carbon footprint
- To avoid single use plastic and thermocol.
- To reduce paper consumption by use of digital technology.
- To enhance digital library.

# Actions

- To modify the existing infrastructure for a sustainable future.
- To adopt at least one village in the surrounding area to give back to society.
- To collaborate with industry and research centers to share resources for project development, research and consultancy.
- To enhance biogas generation from canteen food waste.
- To enhance vermicomposting from garden waste
- Enhance ground water level by water harvesting.

# 10. Sustainability Outcomes

Key Performance Indicators	2021-22	22-23	23-24
<b>Transport Pollution</b>			
Carbon Footprint Reduction (%)	4	8	15
<b>Energy</b>			
Reduction in Energy Consumption	4	8	17
Solar Energy (% of total)	15	30	45
<b>Water</b>			
Water Consumption (Reduction %)	15	30	45
Rain water harvesting (Nos)	1	1	1
<b>Plastic</b>			
Bottles purchased (Reduction %)	30	50	80
<b>Paper</b>			
Paper printing (reduction %)	25	40	50
Paper recycling (increase %)	10	20	30
<b>Waste</b>			
Food waste (reduction %)	10	25	40
Vermicompost (increase %)	10	20	30
<b>Green Campus</b>			
Land Scaping (increase %)	10	20	30
Maintenance (reduction %)	10	20	30
Home-grown organic produce	10	15	20
<b>Awareness and Training Sessions per year</b>			
Students	7	10	12
Employees	2	2	2

**Goal** To create infrastructure in a sustainable way i.e., generation of income, wealth and opportunities that result in the creation of additional incomes, wealth and opportunities without reducing the ability do the same in future

**Education is the most  
powerful weapon which  
you can use to change  
the world.**
